

What is a Master's in energy storage?

Master's Programme in Energy Storage is jointly organized by the School of Engineering and the School of Chemical Engineering. The programme is coordinated by the School of Engineering. Energy storage touches every discipline present at every step of the renewable energy value chain; it is the key to energy sustainability worldwide.

What can I do with a Master's in battery technology & energy storage?

The Master's Programme in Battery Technology and Energy Storage prepares you for a career in both world-class academic research and the Swedish battery/electromobility industry, where qualified professionals are in high demand.

What can you do with a degree in energy storage?

Our researchers are focusing on technology for sustainable production, safe storage and use in efficient fuel cells and are also investigating alternatives such as the storage of energy in chemicals like ammonia, methane and methanol. The following departments offer graduation projects in the Energy Storage profile: The Battolyzer.

What is the energy conversion & storage master's track at TU/e?

The Energy Conversion and Storage (ECS) Master's track at TU/e equips you with the knowledge and skills to design, optimize, and innovate energy technologies for a carbon-neutral world. Key Facts Explore Degree Structure What's in it for me? The ECS Master's track prepares you to tackle real-world challenges in the energy transition.

Is energy storage part of EIT InnoEnergy Master School?

Energy Storage is part of EIT InnoEnergy Master school. It is a two-year Master's programme including compulsory mobility for the students. More information can be found on the program's website Read about the experience of our student Albert Rehnberg and follow his path!

What can I do with a MS in energy engineering?

Students in the MS in Energy Engineering will be able to enter this transient energy industry and engage actively in the engineering and development of new energy systems for the future.

Master of science in factory energy storage

Master of science in factory energy storage
