

Midnite solar battery monitor

Does Midnite solar have a battery capacity meter?

MidNite Solar has a new battery capacity meter! It's probably the easiest to install and easier to read than any other battery meter. You simply connect the negative (-) and positive (+) wires from the meter to the battery terminals. The meter will go through a start-up test sequence when power is first applied.

Does Midnite solar have an ON/OFF switch?

NOTE: MidNite Solar also makes a version of this meter (MNBCMS) that has an on/off switch for the LED lights. It retains its memory but the lights won't draw any power from your battery. If you prefer a meter with a switch, please call or email us for ordering information. The "S" version (MNBCMS) of the meter has an additional short wire attached.

What products does Midnite solar offer?

Midnite Solar creates a wide variety of products for solar applications: MPPT charge controllers, e-panels, combiners, battery enclosures, balance of systems, pre-wired systems, surge protection devices and other quality AC and DC disconnect boxes for the solar energy industry.

What is Midnite solar?
