

National pipeline energy storage company

Where are national fuel gas supply and Empire pipeline located?

Located within the crossroads of the interstate pipeline network serving the Northeast, our two interstate natural gas companies, National Fuel Gas Supply Corporation (Supply) and Empire Pipeline, Inc. (Empire), own and operate nearly 2,800 miles of pipeline facilities, located in New York and Pennsylvania.

What is a natural gas pipeline network?

The U.S. natural gas pipeline network is a highly integrated network that moves natural gas throughout the continental United States. The pipeline network has about 3 million miles of mainline and other pipelines that link natural gas production areas and storage facilities with consumers.

What type of pipeline transports natural gas?

Wide-diameter, high-pressure interstate transmission pipelines that cross state boundaries and intrastate transmission pipelines that operate within state boundaries transport natural gas from the producing and processing areas to storage facilities and distribution centers.

What is a compressor station in a natural gas pipeline?

Compressor stations (or pumping stations) on the pipeline network keep the natural gas flowing forward through the pipeline system. Local distribution companies deliver natural gas to consumers through small-diameter, lower pressure service lines. Source: Stock photography (copyrighted)

What is the Millennium pipeline & how does it work?

Since entering service in 2008, the Millennium Pipeline has delivered natural gas, provided jobs and supported local economies throughout the state of New York. The 263-mile (424-km) pipeline is well-positioned to handle demand in the western part of the state, utilizing its link to domestically produced sources of supply.

Does TC Energy own a pipeline?

The 263-mile (424-km) pipeline is well-positioned to handle demand in the western part of the state, utilizing its link to domestically produced sources of supply. TC Energy effectively owns 47.5 percent of the pipeline, jointly sponsored by subsidiaries of TC Energy, National Grid and DTE Energy.
