

# New Zealand energy storage project starts

Who is launching New Zealand's largest battery energy storage system?

WEL Networks and Infratec are proud to announce the launch of New Zealand's largest Battery Energy Storage System (BESS) with commissioning underway.

Will New Zealand invest in battery energy storage systems?

The Electricity Authority Te Mana Hiko has published a draft two-year roadmap that sets out our work to support investment in battery energy storage systems (BESS). BESS will become increasingly important in the future as New Zealand's power system relies on more intermittent and variable generation. Work set out in the roadmap includes:

Is New Zealand's first large-scale grid battery storage system complete?

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery Energy Storage System (BESS) being officially opened in a ceremony later today.

Will Infratec be New Zealand's First Utility-scale battery energy storage system?

Infratec, a renewables developer, is in the final stages of assessment for New Zealand's first utility-scale battery energy storage system (BESS) with Power distribution company WEL Networks.

Does Saft offer a battery energy storage system for New Zealand?

Saft Executive Vice President for Energy Storage Solutions, Hervé Amoss, says, "Saft is proud to provide this first Battery Energy Storage System for New Zealand in the Waikato. We are excited to start this operation phase of the battery for which we will continue to support our partners."

Is a 35mw/35mwh storage system being built in New Zealand?

The two companies said last Friday (20 October) that their 35MW/35MWh project, in the Waikato region of New Zealand's Upper North Island, has entered the commissioning phase. Infratec general manager Nick Bibby said that the storage system is "the first of its scale to be built in New Zealand".

Powering the energy transition together. ? Penske Australia is proud to provide mtu gas and diesel thermal generation for Zenith Energy's 90MW hybrid power station at Bellevue Gold, a project redefining renewable energy in mining. Need support with your power generation project? ...
