Are NICRO marine vents corrosion-resistant?

If you're looking for rugged, corrosion-resistant parts made specifically for the harsh marine environment - look no farther than Nicro marine products from Marinco. In business for over 40 years, Nicro has engineered their products to exacting performance specifications - so you can depend on Nicro marine vents to go the mile on your boat.

Can NICRO plugs be removed?

They can be taken out and the common Nicro plug cap put in. The new ones cannot be removed, though they have a slide up water shield if taking waves over them. But for offshore they are not safe as green water could rip the units off. Much better to have the old units which are taken out and the caps plugged in. Good one, Skippy!!!

Marinco (formerly Nicro) 24-Hour solar-powered ventilation moves 800 cubic feet of fresh air per hour in the boat cabin. It has a built-in On and Off fan switch, LED lights and an intake and exhaust switch and rechargeable battery Solar cells ...
