

North asia home energy storage power supply procurement announcement

What is northwest China's Energy Strategy?

Northwest China is the concentration area of the country's wind and solar energy. The "West-to-East Power Transmission" is a major national energy strategy. Therefore, long-duration large-scale energy storage in the western region has become a focus of industry attention.

Does China have a new energy storage system?

Xu Ziming, Director of the Energy Efficiency and Energy Storage Division, Energy Conservation and Technological Equipment Department, National Energy Administration, pointed out in his speech that since the "14th Five-Year Plan," new energy storage in China has experienced rapid development.

Is China entering a new era of energy storage demand?

Mainland China accounts for most of the global energy storage demand, driven in the near term by regional requirements for new utility-scale wind and solar projects to include energy storage capacity. However, the Chinese market is entering an era of change.

What are China's new energy storage business models?

China's new energy storage business models have already shifted. Energy storage products with high technical performance, strong safety assurance, and reasonable costs will be more competitive in the market and will also promote the industry's continuous upgrade toward high-quality development.

How much energy storage battery shipments are coming from China?

The specific shipment situation is as follows: According to incomplete statistics from the CNESA DataLink Global Energy Storage Database, in the first half of 2025, shipments of energy storage batteries (excluding base station and data center cells) from Chinese companies to the global market reached 233.6GWh.

What are the top 10 Chinese companies in energy storage system shipments?

In the first half of 2025, the Top 10 Chinese companies in terms of energy storage system shipments in the global market were, in order: Sungrow, CRRC Zhuzhou Institute, HyperStrong, Envision Energy, SCETL, XYZ Storage, ROBESTEC, Sunwoda Energy, CSI Solar, and Trina Storage.
