

Off grid solar storage project financing options in France 2026

Is flexibility a good investment in France for grid-scale battery projects?

Aurora Energy Research has published a flexibility market report showing a significant improvement in market conditions in France for grid-scale battery projects

Should off-grid energy projects and power infrastructure expansions be supported by finplan?

The paper recommends the adoption of the FINPLAN tool for appraising off-grid energy projects and power infrastructure expansions. Off-grid energy projects particularly solar mini-grids, play a crucial role in electrifying remote areas with limited access to centralized grids.

Are off-grid energy projects a key role in electrifying remote areas?

Abstract: Off-grid energy projects particularly solar mini-grids, play a crucial role in electrifying remote areas with limited access to centralized grids.

How do financial parameters affect a solar PV-battery energy storage system (BESS) project?

The case study of a 20.46kWp Solar PV-Battery Energy Storage System (BESS) project highlights the impact of key financial parameters, such as interest rates and inflation, on project returns.

Will AFRR prices continue to rise in 2028?

Aurora expects high prices in the aFRR market to persist until 2028, stabilizing in 2030. Along with an increase in the price differentials in the spot market, driven by higher gas prices, these factors have resulted in an increase of more than 2% in the IRR for battery projects with a commercial operation date in 2025.

When will AFRR capacity market reopen in France?

On June 19, 2024, France adopted a pay-as-you-go mechanism for its aFRR capacity market, which has significantly boosted short-term revenues. Aurora expects high prices in the aFRR market to persist until 2028, stabilizing in 2030.
