Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What is the best portable power station?

With a great power-to-weight ratio, the latest version of the Bluetti Elite 200 V2 is a great portable power station for powering a camper or providing backup power for the essentials. With its tremendous capacity, the EcoFlow Delta Pro 3 is truly capable of providing a whole-home backup without gas or solar panels.

Can a power station be used as a home backup system?

Larger power stations can double as home backup systems (Anker F3800, Goal Zero Pro 4000), and used to run either small or entire portions of your home. For true integration, you'll need to buy a power panel kit and hire an electrician to install it.

How much power does a portable power station hold?

On the small end, portable power stations hold around 300 Wh (like the little EcoFlow River 3 Plus, our Best Budget pick). These little ones are generally smaller than a lunchbox and good for tasks like recharging laptops and speakers, LED lighting, and small fans.

Can a power station be used as an ups?

Most large power stations, including the EcoFlow Delta 3 Plus and Anker F3800 Plus, can serve as an UPS (uninterruptible power supply) for your home. To use these power stations as a UPS, plug them into the wall, then plug whatever devices you want backed up into the station's AC output ports.

What accessories do you need for a portable power station?

One of the most common accessories is going to be a cord to connect to similar power stations in series, often times doubling your power output. Some portable power stations have a light bar built into the housing, which is useful for seeing at night. Anker's Solix C300 also includes a pop-up camping light.
