

Philippine battery energy storage company

Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.

What are battery energy storage systems?

Battery Energy Storage Systems, commonly known as BESS, are advanced energy storage solutions designed to store electricity generated during periods of low demand or from renewable sources such as solar panels or wind turbines.

Why should you invest in lithium batteries in the Philippines?

Our mission is to empower sustainable mobility through cutting-edge lithium batteries, ensuring reliable performance and a cleaner environment. The battery industry in the Philippines is rapidly evolving, driven by the increasing demand for renewable energy and electric vehicles.

Who is the best lithium ion battery manufacturer in the Philippines?

Luzon Power Tech Solutions, based in Manila, rounds out the list of top lithium ion battery manufacturers in the Philippines. Since its inception in the mid-2010s, LPTS has focused on providing high-quality lithium batteries for automotive and industrial applications.

How much does a battery energy storage system cost?

Larger facilities with higher energy demands will require more extensive and costly systems. Battery energy storage systems using lithium-ion technology have an average price of US\$393 per kWh to US\$581 per kWh. While production costs of lithium-ion batteries are decreasing, the upfront capital costs can be substantial for commercial applications.

What is Masinloc battery energy storage?

We started our venture into battery energy storage technology in 2018 when we acquired the 10 MW Masinloc Battery Energy Storage System (BESS) of the Masinloc Power Plant from AES Philippines. The Masinloc BESS is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia.
