

Renewable energy storage supplier quotation in Estonia 2025

Eesti Energia will build its first large-scale storage device at the Auvere industrial complex later this year. The goal is to balance the fluctuations in electricity prices caused by the growth in renewable energy production as well ...

In the future, the owner of a storage system will not have to pay renewable energy fees, electricity excise taxes, or grid transmission fees for electricity stored from the grid and returned to the grid within the same calendar month.
