

Simplify solar batteries

What are the most popular batteries from simpliphi?

Below, we showcase some of the most popular batteries from SimpliPhi's product lines. SimpliPhi's "PHI" brand batteries are great for storing energy in a 12V, 24V, or 48V solar energy system. The batteries do not require ventilation, cooling, or thermal regulation and can easily drop in to replace an existing lead-acid battery.

What is a simpliphi battery?

SimpliPhi batteries utilize a Lithium Iron Phosphate (LiFePO₄ or LFP) system, a specific type of lithium-ion technology. The LFP batteries from SimpliPhi are optimized with proprietary cell architecture, power electronics, BMS, and manufacturing methods that allow for lightweight and attractive installations.

Are simpliphi batteries safe?

These SimpliPhi batteries, designed to withstand harsh conditions, boast impressive energy density, extended cycle life, and hassle-free maintenance. Notably, they are free from hazardous materials, promoting a safe and sustainable energy storage choice. SimpliPhi Power's dedication extends beyond batteries.

Are simpliphi batteries eco-friendly?

Central to SimpliPhi's offerings is their remarkable line of advanced lithium ferro phosphate (LFP) batteries, renowned for their efficiency and eco-friendliness. These SimpliPhi batteries, designed to withstand harsh conditions, boast impressive energy density, extended cycle life, and hassle-free maintenance.

Can I replace an acid battery with a simpliphi LFP battery?

The LFP batteries from SimpliPhi are optimized with proprietary cell architecture, power electronics, BMS, and manufacturing methods that allow for lightweight and attractive installations. In most cases, you can replace an old acid battery with a similarly sized SimpliPhi LFP battery.

Where can I buy simpliphi batteries?

The PowerStore is pleased to carry a wide range of SimpliPhi batteries for sale. PowerStore provides a wide range of solar and storage solutions. Our unmatched experience in solar ensures continued success for our partners.

Briggs & Stratton Energy Solutions debuted the new wire-free SimpliPhi 6.6 LFP battery system this month, which seemingly leaps beyond the "plug-and-play" cliché; for an even simpler "click-and-play" design. Key to the ...

SimpliPhi Battery is a leader in Lithium Ion (LiFePO₄) battery storage. They provide battery storage options for commercial, residential, mobile applications and more. From hospitals, schools, airports, and businesses to RV, disaster ...
