

Solar Panel EPC turnkey quotation per 1GW 2030

Could new EPCs enter renewables?

New types of EPCs could also enter renewables. A few large, diversified EPCs that serve other industries have begun expanding into solar. And as owners look for available talent pools to get projects in the ground, local or regional contractors could also be reskilled to install solar projects.

Should you choose an EPC contract for a solar project?

Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project.

What is the difference between an EPC and a utility?

The utility could procure equipment in-house--such as panels, inverters, trackers, and racking--to manage long lead times and leverage economies of scale across multiple projects while the EPC focuses on building the labor and technical skills to install solar.

Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.

How do solar EPCs compete with higher-margin industries?

To expand capacity, solar EPCs must compete with higher-margin industries for engineering and construction talent. What's more, solar projects are often installed in rural areas where the overall labor pool is smaller to begin with, putting even more pressure on solar EPCs to ramp up their workforce development. Limited access to land and permits.

Are EPC partnerships a winning strategy in the solar industry?

Partnerships have been a winning strategy in the solar industry for many years. Today, leading developers have locked in capacity with two or three core EPC partners on average, bringing benefits to both sides (Exhibit 4).

4 · Solar EPC Market Solar EPC Market Size and Share Forecast Outlook 2025 to 2035 The solar EPC market is projected to grow from USD 440.6 billion in 2025 to USD 960.1 billion by 2035, at a CAGR of 8.1%. PV will dominate with a ...
