

Solar aerator with battery backup

A battery backup is an excellent option for anyone in the market for a solar pond aerator. The sun does not shine at night so having a battery backup, especially in winter months when the days are shorter, allows for continuous aeration. Plus, ...

Battery Backup systems store energy during the day (even in low-light conditions) and power the system at night for up to 24 hours of operation. Once installed, your SolarSeries solar pond aerator will run on 100% renewable energy with ...
