

Solar battery monitor bluetooth

What is a smartshunt battery monitor?

The SmartShunt is an all-in-one battery monitor, only without a display. Your phone acts as the display. The SmartShunt connects via Bluetooth to the VictronConnect app on your phone (or tablet) and you can conveniently read out all monitored battery parameters, like state of charge, time to go, historical information and much more.

What is the best battery monitor?

After testing 4 of the best RV and solar battery monitors for over 2 months, I think the Victron SmartShunt is the best battery monitor for most people.

Is a smartshunt a good alternative to a BMV battery monitor?

The SmartShunt is a good alternative for a BMV battery monitor, especially for systems where battery monitoring is needed but less wiring and clutter is wanted. The SmartShunt is equipped with Bluetooth, a VE.Direct port and a connection that can be used for: monitoring a second battery, midpoint monitoring or a temperature sensor.

How do I connect a smartshunt to a BMV battery monitor?

Connection to the SmartShunt is made via a VE.Direct cable. The SmartShunt is a good alternative for a BMV battery monitor, especially for systems where battery monitoring is needed but less wiring and clutter is wanted.

Can I add solar panels to a 12V lithium battery?

Built into the battery monitor is a 300 watt (15 amp) solar charge controller, allowing you to also add solar panels to any 12V Dakota Lithium battery. Includes everything you need to connect the battery monitor and solar panels to your battery -- the mounting hardware, lithium compatible solar charge controller & battery monitor, and wiring kit.

How many amps does a solar monitor have?

Its 350-amp current rating is lower than the 500-amp ratings of the other monitors in this review, but still plenty high for most RV and DIY solar electrical systems. Installing it was easy once I had the right tools for the job. You need a drill, screws, and a 2 1/8" hole saw or slightly bigger (with pilot drill bit).

A DL staff favorite. Monitor the power level, voltage, and performance of your Dakota Lithium batteries via an easy to use app on your phone. Built into the battery monitor is a 300 watt (15 amp) solar charge controller, allowing you to ...

With Bluetooth built-in, the BMV Smart is ready for the Internet of Things (IoT) era. With Bluetooth being implemented in most other Victron Energy products, wireless communication between products will simplify
