How much does a SolarEdge battery cost?

This scoring reflects SolarEdge's Home Battery (bat-10k1p) which needs to be paired with a SolarEdge hybrid inverter. \$\$\$Price: Based on data from Solar Choice's network of solar installers, the average price for an installed SolarEdge battery is \$1,244 per usable kWh. This places it in the higher-cost range, above many competitors.

What is a SolarEdge home battery?

The SolarEdge Home Battery is more than just storage -- it's the heart of a fully integrated smart energy system. Designed to work seamlessly with SolarEdge inverters, the Backup Interface, EV chargers, and other smart energy devices, it gives homeowners greater control, efficiency, and energy independence.

How efficient is the SolarEdge home battery?

The SolarEdge Home Battery does pretty well in the performance and efficiency specs we look at. It has a higher-than-average round-trip efficiency rating of 94.5%. Round-trip efficiency is essentially a measure of how much of your energy makes it in and out of battery storage without getting lost.

How many kWh can a SolarEdge home battery store?

The SolarEdge Home Battery has a fairly standard usable capacity of 9.7 kWh. You can stack up to three battery units for a total of 29.1 kWh of energy storage capacity. SolarEdge's battery isn't modular, meaning you won't be able to upgrade your storage capacity on a singular battery unit.

Are SolarEdge home batteries compatible with inverters?

SolarEdge home batteries are only compatible with SolarEdge inverters. As a SolarEdge is a premium solution, many Australians will not already have a compatible inverter to support this battery. There is only 1 size battery at 9.7kWh.

What is SolarEdge's Solar battery scorecard?

Scoring is based on our solar battery scorecard which is consistently applied to each brand and battery available on the Australian market. This scoring reflects SolarEdge's Home Battery (bat-10k1p) which needs to be paired with a SolarEdge hybrid inverter.
