

Solar nimh battery charger circuit

The charging time for Ni-MH batteries using solar panels depends on the solar panel's power output, battery capacity, and sunlight availability. To estimate the charging time, divide the battery capacity (in milliamp-hours) by the solar ...

They'll charge backwards and all kinds of funny stuff if you wire them in series. Plus, in parallel, you can charge as many or as few as you like and still complete the circuit. Make sure that the positive wire that connects the positive ends of ...

\$4 Solar Battery Charger: When I got into electrical circuits and solar power, the first thing I wanted to do was build a little solar powered battery charger. Only I had a heck of a time trying to find a simple and straight forward guide to doing ...
