

Solar panel battery warranty

What is a solar battery warranty?

Solar battery warranties vary by manufacturer and product. A standard battery warranty should come with at least 10 years of protection, though it can be shorter depending on how often you charge and drain your battery.

Are solar panels covered by a warranty?

A solar panel warranty doesn't cover the performance of your other system components like your inverter, mounting materials, or battery. These products are covered by their own separate warranties and are also vital for your system's long-term value and performance. What's the power warranty on solar panels?

What warranties does a solar system have?

Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1. Product warranties A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries.

What is a solar warranty & how does it work?

When you install solar, your warranty won't take the form of a single policy, but rather several different coverages offered by your installer and the manufacturers of your solar equipment. Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1.

How long does a solar panel warranty last?

The average warranty coverage from panel manufacturers includes 25 years of coverage for the equipment and manufacturer defects and 25 years of guaranteed maximum efficiency losses. Most manufacturers don't handle installations as well, so they don't typically provide labor or roof leak warranties.

Which solar panel manufacturer has the best warranty coverage?

There are a few manufacturers that go above and beyond with their warranty protection. SunPower is, by far, the best solar panel manufacturer in terms of warranty coverage for its products, and Tesla is another excellent provider that has above-average coverage overall. Some of the best warranties come from the following manufacturers:

Unlike solar panels or inverters, which normally carry 25-year warranties, solar battery warranties are often far shorter. The industry standard for batteries is 10-12 years; the timeframe is influenced by the battery's chemistry and rarely will ...
