

# Solar plus storage cost breakdown in Greece 2026

How much does Greece's new solar-plus-storage scheme cost?

Greece's new solar-plus-storage scheme has a EUR200 million budget, which stems from the country's post-pandemic recovery plan. Of this, EUR35 million of funds are for vulnerable households facing energy poverty.

What is Greece's new solar subsidy program?

His geographic area of expertise includes Europe and the MENA region. Greece's Ministry of Environment and Energy has revealed a new EUR200 million (\$215.3 million) subsidy program for solar projects and small storage systems in the residential and agricultural segments. The scheme is backed by the country's post-pandemic recovery plan.

What will Greece's energy future look like in 2030?

In fact, the EU's National Energy and Climate Plan (NECP) prescribes that, by 2030, over 80% of Greece's electricity mix will be made up of renewable sources. For solar PV, which takes a leading role, an upgraded target of 14.1 GW of PV capacity was set for 2030.
