

Solar plus storage tender price in India 2026

What is SECI's solar-plus-storage tender?

SECI issued a request for selection last week seeking 1.2GW of solar PV and 600MW/3.6GWh of BESS. Credit: Solar Energy Corporation of India. State-owned firm Solar Energy Corporation of India (SECI) has launched a solar-plus-storage tender seeking 1.2GW of solar PV.

Did NTPC win a solar-plus-storage tender?

The power generation company launched a tender for the same capacity of solar and ESS in June last year. NTPC subsidiary NTPC Renewable Energy Limited was a recent winner in a solar-plus-storage tender hosted by Solar Energy Corporation of India (SECI), as reported by Energy-Storage.news earlier this month.

When will solar-plus-storage & solar-wind hybrid tenders open in India?

A pre-bid meeting for the tender takes place on 10 July 2025, and bidding will open on 21 August. Solar-plus-storage and solar-wind hybrid tenders have been on the rise in India last year. Nearly half of the 73GW capacity tendered in 2024 is coming from hybrid tenders.

How much solar PV is required for NTPC tender?

As with the new NTPC tender, SECI had required every 1MW of PV to be paired with 0.5MW/2MWh of storage. In July last year, a report from market research firm Mercom India said that 90% of India's 219MWh cumulative battery energy storage installations to that date was paired with solar PV generation.

How much does energy storage cost in India?

Recent energy storage auctions in India reveal record-low prices, with unsubsidized standalone battery storage bids at 2.8 lacs/MW/month and solar+storage bids at 3.1-3.5 I

How long does a solar power tender last?

The tender was floated in March this year. SECI will enter into a power purchase agreement (PPA) with the successful bidders to purchase solar power for 25 years. The selected bidders must set up the projects on a build-own-operate basis and commission them within 24 months of the effective PPA signing date.

Plummeting costs of solar and battery storage in India along with technological improvements are opening new opportunities for clean and low-cost power generation. Recent energy storage auctions in India reveal record-low prices, ...
