

Spypoint solar battery pack

Can I use a 12V battery with a spypoint camera?

It is compatible with all SPYPOINT cameras with a 12V socket. The 12V is an external battery pack that provides an extra-long life to most of our device models. It can be used in addition to AA batteries or the SPYPOINT lithium battery packs, as a supplemental source of power. Our solar cameras are built with an internal battery.

What is a spypoint battery pack kit?

The SPYPOINT 7.4v lithium battery pack kit offers a far superior battery life than a set of standard alkaline batteries, especially in cold conditions that are often particularly hard on traditional AA batteries. Increased battery life means fewer trips to your device site to keep it functioning.

What is spypoint lit-22 battery pack?

SPYPOINT LIT-22 Rechargeable Lithium Battery Pack(7.4V,5.4Ah) for Cellular Trail Cameras,Compatible with Flex Series (Flex-M,Flex-S,FLEX-G36,Flex-Plus),Includes AC Charging Cable (Pack of 2) We offer easy,convenient returns with at least one free return option: no shipping charges. What is a spypoint flex battery?

The SPYPOINT FLEX trail camera battery offers savings for your SPYPOINT trail camera. Extend the battery life of the SPYPOINT FLEX with the LIT-22 rechargeable lithium battery.

How do I install a spypoint camera panel?

Before installation,charge the panel for 5-6 hours with the DC power adapter. When you install it,connect it to the 12V output port on your camera. Orient the panel so that it catches as much light as possible,ideally facing south. It is compatible with all SPYPOINT cameras with a 12V socket.

Can a solar panel charge a lithium battery?

COMPACT DESIGN The compact design of the SPYPOINT Solar Panel Kit puts both the solar panel and lithium battery in the same package. No more using a solar panel to charge a battery with wires running everywhere. Now, its all in one! **ONBOARD BATTERY** Trail camera solar power isnt just a solar panel, its also a lithium battery!
