

Successful bid price of microgrid storage project in Malaysia 2026

Who has bid on Malaysia's first large-scale grid-connected energy storage project?

The first large-scale grid-connected energy storage project in Malaysia has attracted bids from over 20 companies, including Tenaga Nasional Berhad. (Image: TNB)

Who are the bidders for Malaysia's first large-scale battery system?

Bidders include established energy players as well as newcomers from the infrastructure and property development sectors. In 2024, Malaysia launched its first large-scale storage initiative, known as MyBeST, to build four grid-connected battery systems of 100MW/400MWh each.

Which energy companies are preparing a bid in 2027?

The bidding round opened in May and closed in July, with winning projects expected to come online by 2027. According to The Edge Malaysia, major energy companies--including Tenaga Nasional Berhad (TNB), YTL Power, and Malakoff Corp--have submitted multiple bids. TNB is widely seen as a frontrunner.

Pacific Aquafarms Pacific Aquafarms built an off-grid microgrid to support a portion of the fish farm just off the Saltan Sea which raises high quality tilapia and catfish for the live market. With large pumps and motor loads, the energy ...

In brief On 29 November 2024, the Ministry of Energy Transition and Water Transformation (" PETRA ") announced the opening of the bidding process for the development of battery energy storage system project (BESS Project). The ...
