

Successful bid price of rooftop solar storage project in Czech 2026

How will the EU solar rooftop standard affect public buildings?

Public buildings like schools and hospitals will be particularly empowered by the EU Solar Rooftop Standard, which ensures they will benefit from solar-reduced energy expenses and dependence on fossil fuels.

Will the EU rooftop solar standard drive more rooftop solar capacity?

According to our analysis, the EU Rooftop Solar Standard within the EPBD could drive the installation of 150 to 200 GW of additional rooftop solar capacity in the EU between 2026 and 2030. Critically, the Solar Rooftop Standard will unlock the potential of large rooftops such as those installed on offices, commercial buildings, or car parks.

How big is rooftop solar in Europe?

Total rooftop solar capacity in Europe stood at more than 170 GW at the end of 2023 and is expected to grow to 355 GW by the end of 2027. In addition to the obligatory solar installations under the Solar Standard, the growth of rooftop solar on homes is also likely to increase, as citizens seek to shield themselves from fossil price volatility.

Will rooftop solar become a standard?

Jan Osenberg, Senior Policy Advisor at SolarPower Europe (he/him) said: "Like the essential integration of smoke detectors years ago, this new law propels rooftop solar toward becoming the standard. More buildings, businesses, and citizens will have access to clean, renewable, economical solar energy."

When does the EU solar rooftop standard apply?

The EU Solar Rooftop Standard applies to new non-residential and public buildings from 2027, to existing non-residential buildings undergoing major renovations by 2028, to new residential buildings from 2030 and on all suitable existing public buildings by 2031.

How many European homes can be powered by solar energy?

SolarPower Europe's latest preliminary analysis indicates that the implementation of the EU Energy Performance of Buildings Directives could potentially power the equivalent of 56 million European homes with solar energy.

The Gujarat government has launched an ambitious rooftop solar program named "Surya Gujarat" to promote wider adoption of solar power across residential, commercial and industrial sectors in the state. This article provides complete ...
