

# Successful bid price of solar storage container project in Poland 2026

How much does energy storage cost in Poland?

The CM has been a big driver of the grid-scale energy storage market in Poland. The closing price at the end of the event was PLN 264.90/kW (\$65/kW) per year. With such pricing, gas projects stand to become uneconomical, paving the way for battery storage systems to secure contracts.

How much storage capacity does Poland have in 2024?

The Polish Economic Institute reported that in the power market's main auction, which was held in December 2024, storage capacity of around 2.5 GW was contracted, indicating that this was a 44 percent increase over 2023, in which the total contracted for batteries was 1.7 GW.

How will energy storage facilities benefit Poland's energy mix?

Energy storage facilities will ensure the flexibility and reliability of the grid, supporting the integration of renewable energy generation in the Polish energy mix, Chilinska-Zawadzka added. The company has been operating in Poland for 13 years and has already built five onshore wind farms.

How much Bess capacity can a capacity market auction catalyze?

While the final results are awaited in January 2025, industry insiders feel the capacity market auction can catalyze about 2.5 GW of BESS capacity. (Illustrative Photo; Photo Credit: (Petrmalinak /Shutterstock.com))

Polish utility PGE Group is planning to add more than 80 energy storage facilities through to 2035 to the tune of PLN 18 billion (\$4.7 billion). One of these will be the 981 MWh Zarnowiec battery energy storage project, which will ...
