Are Thunderbolt batteries good?

Yes, the Thunderbolt and Thunderbolt Edge line of Alkaline batteries work very well in most devices and are a great value compared to most name brands. However, the Thunderbolt Heavy Duty Magnum line of Zinc Chloride batteries are pretty poor due to a lack of quality control and power.

Are Thunderbolt Magnum batteries worth it?

So, I've used all three tiers of their batteries and the best (through my tests) are the "better" Thunderbolt Magnum. The yellow ones are worthless, the Edge are more expensive and don't work well. Not sure if y'all have had the same experience. They're worth getting if there's a coupon and you need some batteries.

Are Thunderbolt heavy duty zinc chloride batteries any good?

However, the Thunderbolt Heavy Duty Magnum line of Zinc Chloride batteries are pretty poor due to a lack of quality control and power. In my opinion I would stay away from the Thunderbolt Heavy Duty Magnum (Yellow) batteries as they are simply not worth the trouble of having them around.

Are Harbor Freight Thunderbolt batteries free?

The Yellow Thunderbolt Heavy Duty batteries are Harbor Freight's budget line of power. They are the least expensive of all of the options and can even be picked up as a "Free Item" with coupon. What is a blue Thunderbolt edge battery?

Made of Alkaline The Blue Thunderbolt Edge batteries are currently the best batteries offered by Harbor Freight and perform nearly as well as your big name brands like Duracell & Energizer. Applications Perfect to use in any application that calls for a standard Alkaline battery.

Are Harbor Freight Thunderbolts any good?

Seems like they are not much better than the older orange and black Thunderbolts. But good enough when on sale. The orange magnums lasted about 40 hours in my switch controller. Haven't been able to compare with the edge though. A sub-reddit dedicated to Harbor Freight and reviewing their tools.
