

Top 10 Japanese industrial energy storage battery merchants

What are the top 10 battery companies in Japan?

The top 10 Japanese battery companies in lithium industry including Panasonic, Murata, KYOCERA, Toshiba, ELIY-Power, FDK, Mitsubishi, EV Energy, Blue Energy, Vehicle Energy. For battery manufacturers in other Asian countries, you can refer to: [Company profile](#):

Why are Japan's Top 10 battery manufacturers important?

The top 10 battery manufacturers in Japan made significant contributions to the rapid growth of lithium-ion, lead acid, and other advanced battery industries. These major companies ensure their products have the best performance and sustainability, making Japan one of the powerhouse in the battery sector.

How big is Japan's battery storage market?

In the commercial space, Japan's battery storage market was valued at USD 593.2 million in 2023 and is projected to reach USD 4.15 billion by 2030. While commercial installations currently dominate revenues, industrial adoption is expected to scale faster. Utility-scale storage is also gaining ground.

Why is Japan a global player in the battery industry?

Japan is a global player in the battery industry with its manufacturers supplying the needs of global customers and driving innovation in energy storage solutions for various industries. From consumer electronics, electric vehicles, even industrial machinery, Japanese battery manufacturers have products for all these applications.

How big is Japan's energy storage capacity?

Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030. Japan had 1,671MW of capacity in 2022 and this is expected to rise to 10,074MW by 2030. Listed below are the five largest energy storage projects by capacity in Japan, according to GlobalData's power database.

What is Japan's energy storage policy?

As policy, technology, and decarbonization goals converge, Japan is positioning energy storage as a critical link between its climate targets and energy reliability. Japan's energy storage policy is anchored by the Ministry of Economy, Trade and Industry (METI), which outlined its ambitions in the 6th Strategic Energy Plan, adopted in 2021.
