

Total investment cost of MW scale storage system project in Romania

How many MW is a Bess project in Romania?

This project will feature a 127 MW power rating and an energy storage capacity of 254 MWh, making it one of the largest BESS projects in Romania to date. However, R.Power has not disclosed when the project will become operational.

What is R power doing in Romania?

In addition to its activities in Romania, R.Power is involved in several renewable energy and storage initiatives across Europe. In related news, IPP Renalfa has acquired a 258 MW solar project in Teleorman, Romania, which is expected to begin operations in 2027.

How much pnrr funding will Romania get?

As part of its green energy push, Romania recently announced that 18 solar and storage projects, totaling 2.5 GWh of capacity, would receive a share of EUR73.8 million in PNRR funding. R.Power's project is likely among these.
