

Trailer battery box with solar panel

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

Can you use a 12 volt battery box with a solar panel?

You can use the range of 12V adaptors included on the box and if the battery box has anderson plugs you will be able to easily recharge using a solar panel setup. The best Battery Boxes are great for getting reliable 12 volt and 240 volt power for a range of devices and appliances.

What should I connect between my solar panel and the battery box?

You cannot connect your solar panels directly to the battery box, as the current could be too strong and damage your battery. To prevent this, you need to ensure there is a solar regulator connected between the solar panel and the battery box.

Which batteries fit in the battery box?

By its built-in over-current protectors & multi input/output ports, the Battery Box is great for Boating, Camping, Overland and Solar Power Storage. Compatible with 12V-24V Batteries as long as they fit in the box, such as Group 24, 27, 31 and most other AGM & Lithium Batteries.
