

Utility scale ESS tender price in Greece 2026

Will Greece provide a quota for battery projects in 2024?

Before the end of 2024, Greece intends to provide subsidies for standalone battery projects of 200 MW in total via the third auction. The Ministry of Environment and Energy issued a decree determining the available operating power quota.

What is the highest subsidy for a battery project in Greece?

The highest awarded subsidy came at EUR58773/MW/year and refers to a 7.9 MW/31.6 MWh project located in the same region. Greek firm Hellenic Renewables, which is a subsidiary of Helleniq Energy, offered the lowest successful bids for two battery projects of 25 MW/100 MWh each.

Does Greece have a Bess subsidy program?

Moving forward, Greece is abandoning subsidizing BESS via auctions. Instead, the country has recently launched a new program for 4.7 GW of unsubsidized BESS which will be offered priority grid connections on a merchant basis without subsidy support.
