

Warehouse solar storage tender price in Portugal 2026

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

Could energy storage be a business case for battery storage in Portugal?

It added that taxpayers will save EUR559 million over the next 15 years as a result of the auctions. Read about how experts at consultancy firm Clean Horizon view the inclusion of energy storage and the design of the tender as an "interesting first step" in creating a business case for battery storage in Portugal.

Will Portugal produce 80% renewable electricity by 2026?

As Portugal launched its first tender for biomethane and green hydrogen, Portugal's new energy strategy aims to produce 80% renewable electricity by 2026, and 85% by 2030. The Plan sets a target of 20.4 GW of operational PV systems in 2030, including 14.9 GW of large-capacity plants and 5.5GW of decentralized generation.

In a significant development for India's renewable energy sector, a solar project integrated with energy storage has recorded a tariff of INR3.32 per unit--5.8 per cent lower than the rate discovered in a similar tender by SECI in ...
