

Where can i rent an energy storage power station

Should you rent a battery energy storage system?

Renting a Battery Energy Storage System from Sunbelt Rentals is a smart choice for your business and your bottom line. Owning this equipment can tie up capital and reduce your business's ability to react to changing market conditions.

Why should you lease a site for a battery energy storage system?

Land is the most important resource for the development of battery energy storage systems. Several factors must be considered when considering the leasing of a site for a BESS project, some of the most important being: The size of the land required for a BESS project depends on the capacity of the battery system.

What is a battery energy storage system?

Our fleet of battery energy storage systems (BESS) for rent are designed to store and provide power when you need it most on the jobsite. When you require an industrial energy solution for your construction site, plant or event, these energy storage systems provide silent, efficient temporary power at several different outputs.
