

Yuanda business park is an energy storage concept

How can big data industrial parks improve energy storage business model?

Combined with the energy storage application scenarios of big data industrial parks, the collaborative modes among different entities are sorted out based on the zero-carbon target path, and the maximum economic value of the energy storage business model is brought into play through certain collaborative measures.

What is China's energy storage business model?

China is gradually forming an open electricity sales market with diversified competitors. With ancillary services as the main base, the two-part tariff business model is used for electricity price incentives. Due to its flexibility, energy storage should be widely used in competitive models.

What is the implementation plan for the development of new energy storage?

In January 2022, the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system.
