

Zareba edc5m-z 5-mile battery operated solid state electric fence charger

What is a zareba 5 mile fence charger?

The Zareba 5 Mile Battery Operated Solid State Fence Charger is designed for controlling horses, pigs, cattle, and pets. It also helps protect your garden from rabbits, skunks, woodchucks, and raccoons. This charger is ideal for powering remote areas that do not have access to AC power.

What is a 5 mile battery operated electric fence charger?

Learn More Our Zareba 5 Mile Battery Operated Electric Fence Charger is designed for controlling horses, pigs, cattle, and pets. It also helps protect your garden from rabbits, skunks, woodchucks, and raccoons. This charger is ideal for powering remote areas that do not have access to AC power.

What is the best electric fence charger?

The Zareba 5 Mile Battery Operated Solid State Electric Fence Charger is designed for controlling horses, pigs, cows and exotic animals. It also helps keep out rabbits, skunks, woodchucks and raccoons. Ideal for powering remote areas and areas lacking access to AC power. Can be used with medium length fences having light to moderate weeds.

How many miles of fencing can the edc5m-z power?

When used with steel wire and no weeds touching the line, this charger can power up to 5 miles of fencing. With light weeds or poly fence line, it can power up to 2.5 miles of fencing. For easy installation, the EDC5M-Z features easy-grip screw-on terminal knobs that help you connect your ground-rods and your live fence wire.

Is zareba a good electric fence charger?

The Parmak was the innovator of solar-powered electric fence chargers, but Zareba has made a name for itself in the industry as well. The Parmak is focused on meeting the needs of large livestock and produces a moderate amount of joule output along with a fair coverage distance, but it comes at an expensive price point.

How do I install the edc5m-z?

For easy installation, the EDC5M-Z features easy-grip screw-on terminal knobs that help you connect your ground-rods and your live fence wire. Connect the fence line to the red terminal and the ground line to the green knob. Monitor your fence status by checking the simple "Fence OK" light. If the light is active, then your fence is up and running.

The Zareba 5-Mile Battery Operated Solid State Fence Charger has a 5-mile range and is suitable for moderate, dry weed conditions. It controls horses, pigs, cows, and exotic animals, and helps keep out rabbits, skunks, and raccoons. ...
